anggitlangengw  
Mar 13

1. yang masih kurang tepat adalah tanggal pada article history, yaitu: tanggal revisi seharusnya 17 januari 2024 (pada paper masih tertulis 17 januari 2023),

poin yang lain sudah tepat, mohon untuk menjadi periksa, terima kasih

The abstract section includes the following text:

**Abstract**

**Purpose :** The research investigates the influence of financial risk on the value of state-owned companies (BUMN) on the Indonesia Stock Exchange with related party transactions as a moderating variable.

**Method :** The population in this research is all state-owned companies listed on the Indonesia Stock Exchange from 2015 to 2022. The sample selection technique uses purposive sampling methods. Data analysis uses regression testing with moderating variables.

**Findings :** The results of this research show that financial risk has a negative effect on the value of state-owned companies in Indonesia. Related party transactions (RPT) have a moderating effect that strengthens the influence of corporate financial risk on the value of BUMN companies.
